About This Game

Moonfall Ultimate is a 2D side-scrolling action-RPG, set in an industrial gothic universe. Hack, slash and cast your way through a treacherous hand-painted world. Moonfall Ultimate is a new and improved version of the original "Moonfall" game and now features a 2-player Couch Co-op mode and an Endless Arcade mode!

Choose your class and upgrade your gear with metroidvania-style exploration and a focus on strategic real-time combat.

Discover a story of The Empire, a once small kingdom now under threat from so-called Savages. They hunt a mysterious element known as Lunarium which resides in The Empire and you, a dauntless recruit, must protect the land at the front line.

- Beautifully hand-painted 2D graphics full of detail and dark atmospherics.
- Play the Campaign or Endless Mode solo or grab a friend with the 2-player couch co-op support.
- Three character classes with unique active and passive abilities. Choose Vanguard, Elementalis or Shadow to suit your play style.
- A sturdy levelling system and in-game economy which gives access to over 80 unique items. Fight, collect and upgrade!
- Action-packed combat system provides a diverse choice of dealing damage. A suitable strategy is the key to success.
- 13 open-ended and fully explorable levels with elements of the metroidvania genre and packed with quests, boss fights and notes expanding the lore.
- Over 60 tiered enemies, each with their own unique attack and defensive attributes.

This game is not very good. It feels absolutely clunky, like an alpha or something. Very much not a finished product. The artwork is very nice, though...not so much the animations. Maybe if this game was like \$1 it would be worth it. I'm going to have recommend passing on this one, guys and gals, which saddens me, as I was really hopeful for this title.
